Il "Niccolini" di Volterra, **Magic Bricks for E**

www.magicbricks.eu

Video Description: Last October a group of students went to Corleone, the old capital of the sicilian and Italian mafia. The occasion was a project organized by an assosaction called "Libera" wich works to contrast the mafia in Italy. We worked in the fields taken to the mafia's families. It was a beautiful experience and we recorded it in a short video called "100 walks in to legality" and this is what we are presenting.
